MARE & ORIGINAL CONTRACT INFORMATION

Mare Owner / Contract Owner: _____

Mare Registered Name: _____

Mare Registration No. / Breed: _____

Mare Year Foaled: _____

Original Contract Date: _____

Original Mare (if different): _____

1. ELIGIBILITY AND REBREED FEE

This Rebreed Contract supplements the original stallion breeding contract for the stallion and mare identified above. It applies only if the Mare Owner is eligible for the rebreed privilege under the original contract because the mare did not produce a live foal during the original breeding season. A live foal means a foal born alive and able to stand and nurse. West Fork Ranch may require written veterinary documentation confirming eligibility.

The rebreed fee is $350, due in full before the rebreed is honored or semen is released. This is a rebreed fee, not a second full stud fee or a refund of the original breeding fee. All collection, shipping, veterinary, insemination and other associated charges are additional. The Mare Owner must be current on amounts owed under the original contract.

2. BREEDING SEASON AND SEMEN EXTENDER

The regular breeding season is **March 1 through June 15** of the rebreed year. Semen collection after June 15 may be available depending on the stallion's show and travel schedule, but is not guaranteed. West Fork Ranch will make reasonable efforts to accommodate requests through July when possible. Beyond semen extender will be used when appropriate; collection and shipment timing remain at West Fork Ranch's discretion based on availability, semen quality and scheduling.

3. COLLECTION AND SHIPPING CHARGES

Collection, preparation and shipping fees are separate from the $350 rebreed fee. **UPS overnight shipment: $350 per shipment. Local pickup: $150 per collection.** The Mare Owner is responsible for all applicable courier, return shipping, veterinary, reproductive and other related charges. Required charges may be collected before semen is released or shipped.

4. SEMEN ORDERS - TEXT ONLY

Collection days are **Monday, Wednesday and Friday**, except holidays. Orders must be placed by **7:00 PM the day before collection**. Orders may be canceled until **8:00 AM on collection day**; if not canceled by that time, the shipping fee will still be charged. **No semen orders are accepted after 8:00 AM on collection day.**

All semen orders must be **TEXTED to Amy at 641-420-0712**. No calls or emails will be accepted. Orders are listed in the order received. Please include: **(1)** stallion name; **(2)** contract owner/mare owner; **(3)** mare's registered name; and **(4)** recipient person/facility and full shipping address. If Saturday delivery is requested, provide a **valid UPS Saturday-delivery address**.

Phone service is limited, especially in the barn; please allow time for a response. West Fork Ranch will make reasonable efforts to accommodate orders, but collection, availability and delivery on a particular day cannot be guaranteed because of shows, travel, illness, injury, weather, carrier delays, holidays or other circumstances beyond its control. Please be courteous; these are living animals and breeding schedules may change.

5. PRIORITY

Mares bred on-site have priority on any collection day. If there is insufficient semen for all shipped-semen orders, orders will be filled on a first-ordered, first-served basis according to the order in which requests were received. No specific collection or shipment date is guaranteed.

6. DOSES

A shipped-semen order should be expected to contain one (1) breeding dose. Two doses may be sent if sufficient semen is available, at the sole discretion of West Fork Ranch. The rebreed fee does not guarantee two doses per shipment.

7. SHIPPING CONTAINERS

Reusable semen shipping containers remain the property of West Fork Ranch and must be returned promptly at the Mare Owner's expense. Containers not returned within five (5) days may incur a $50 replacement fee.

8. MARE REQUIREMENTS

The mare must be healthy and in sound reproductive condition. West Fork Ranch may refuse semen or breeding for a mare with suspected contagious disease, reproductive infection or other health concerns, and may request registration papers, a current negative Coggins, reproductive culture/cytology or other appropriate records. All examinations, ultrasounds, treatments, medications, inseminations and other veterinary procedures are the Mare Owner's responsibility.

9. USE OF SEMEN AND MARE SUBSTITUTION

Semen may be used only for the mare identified in this Rebreed Contract, for the purpose of producing one (1) foal, unless West Fork Ranch gives prior written permission. A substitute mare requires prior approval. Semen may not be sold, transferred, frozen, stored for later seasons, used on other mares, or used for additional embryos or pregnancies without written authorization. Embryo transfer, ICSI, frozen semen and other assisted reproductive procedures may require separate terms and fees.

10. REBREED TERM AND NO FURTHER CARRYOVER

This Rebreed Contract is valid only for the breeding season immediately following the original breeding season. The rebreed privilege expires at the end of that following season and may not be carried forward, renewed or transferred as another rebreed if no live foal results from this rebreed attempt. Failure to use the rebreed during the eligible season forfeits the privilege, unless West Fork Ranch agrees otherwise in writing. This agreement does not create a new live-foal guarantee or a new full breeding contract.

11. STALLION UNAVAILABILITY

If the selected stallion dies, becomes infertile, is seriously injured or is otherwise permanently unavailable before pregnancy is obtained, West Fork Ranch may, at its option, offer a breeding to another available stallion or extend the breeding privilege when appropriate. Available frozen semen may be substituted for additional fees. No specific alternative is guaranteed.

12. PREGNANCY RESULTS AND BREEDER CERTIFICATES

The Mare Owner must report the mare's pregnancy status and eventual foaling outcome. Notice of a positive pregnancy is due no later than **October 1 of the rebreed year**. If positive pregnancy is not reported by October 1, a **$100 late fee** is due to add the mare to the Stallion Breeding Report. Breeder certificates/releases will not be issued until all charges are paid and the Mare Owner reports the birth of a live foal. Registration documents/releases will be processed electronically through the applicable breed association; paper copies will be provided only if specifically requested.

13. BREEDER RESPONSIBILITY, RISK AND LIABILITY

West Fork Ranch will use reasonable care in collecting, processing and preparing semen and will release semen for shipment in a condition reasonably believed viable at departure. No shipment is guaranteed to result in conception, pregnancy or a live foal. Once semen leaves the breeding facility, West Fork Ranch is not responsible for loss of viability, contamination, temperature changes, carrier errors, delays, mishandling, damage, weather disruptions or other transportation-related losses.

The Mare Owner assumes transportation and delivery risks and all costs and inherent risks associated with breeding, insemination, assisted reproduction, pregnancy, foaling and mare care. Each party remains responsible for its own acts and omissions and those of its employees, agents and representatives. Nothing in this agreement waives liability that cannot lawfully be waived.

14. NO REFUNDS; NO ASSIGNMENT

All payments to West Fork Ranch are final. No refunds of any kind, except as required by applicable law.
Prior written ranch approval is required to sell, give away, transfer or assign this rebreed to another person or mare.
A $100 transfer fee must be paid to West Fork Ranch before any approved transfer takes effect.

15. SOCIAL MEDIA AND PUBLIC STATEMENTS

The Mare Owner agrees not to knowingly publish or communicate false, defamatory or materially misleading statements about West Fork Ranch or its owners, managers, employees, agents or affiliates. The parties are encouraged to communicate directly and attempt in good faith to resolve disputes. This provision does not prohibit truthful statements, honest reviews, or lawful communications with attorneys, veterinarians, breed associations, insurers, regulators or law enforcement.

16. ENTIRE AGREEMENT; BINDING EFFECT; IOWA VENUE

This Rebreed Contract, together with the original breeding contract to the extent not inconsistent with this document, constitutes the agreement for this rebreed. By signing, both parties acknowledge that they have read, understand and agree to these terms and intend them to be legally binding. Changes and special arrangements must be in writing and agreed to by both parties.

This agreement is governed by Iowa law. To the extent permitted by applicable law, any lawsuit or legal proceeding arising out of or relating to this agreement shall be filed and maintained in the appropriate state court located in **Franklin County, Iowa**, and the parties consent to jurisdiction and venue there.
